16. Difficult days
17. Needing reassurance
18. Appreciating each other
19. Memories and little moments
20. A final message of comfort and love

## **You Are Not Alone**

Kahit minsan pakiramdam mo mag-isa ka, please remember na may taong nagmamalasakit sa'yo. Hindi mo kailangang harapin lahat nang sabay-sabay. Nandito lang ako, cheering for you quietly and loving you gently. Pahinga ka muna, love. You are still worthy, even on your hardest days.

- *You are loved. Please be gentle with yourself.*

## Family Problems

Alam kong mabigat kapag may problema sa family. Hindi mo kailangang ayusin ang lahat para masabing mabuti kang anak o kapamilya. You are allowed to feel tired, sad, or confused. Hindi kasalanan ang mapagod. One day at a time lang, okay? I'm here to listen without judging you.

- *You are loved. Please be gentle with yourself.*

## When You Are Busy

Kapag busy ka, hindi ibig sabihin na nakakalimutan mo na ako. Naiintindihan kong marami kang ginagawa at may responsibilities ka. Take your time, love. Hindi kita minamadali. Kahit simpleng message lang kapag may chance ka, enough na iyon. Please take care of yourself too.

- *You are loved. Please be gentle with yourself.*

## Your Family Needs You, Too

Minsan ikaw ang strong one sa bahay, pero ikaw rin ay may karapatang maalagaan. Hindi mo kailangang maging perfect para maging importanteng bahagi ng family mo. Your presence, effort, and kindness matter. Kung pagod ka na, breathe slowly. You deserve care, too.

- *You are loved. Please be gentle with yourself.*

## When Everything Feels Too Much

Kung sabay-sabay ang school, family, responsibilities, at emotions, okay lang huminto sandali. Hindi mo kailangang tapusin lahat ngayong araw. Choose one small thing first. Then rest. Hindi ka mahina dahil overwhelmed ka. You are human, and you are doing your best.

- *You are loved. Please be gentle with yourself.*

## You Are Stronger Than You Think

Alam kong marami ka nang pinagdaanan, kahit hindi mo lahat sinasabi. Every day na bumabangon ka ay may halaga. Hindi man perfect ang progress mo, progress pa rin iyon. I'm proud of your courage, even when you don't feel brave.

■ *You are loved. Please be gentle with yourself.*

## It's Okay to Ask for Help

Hindi mo kailangang solohin ang lahat. Asking for help is not weakness; it is a sign na gusto mong alagaan ang sarili mo. Pwede kang lumapit sa taong pinagkakatiwalaan mo, sa family member, friend, teacher, or someone who can listen. You deserve support.

- *You are loved. Please be gentle with yourself.*

## Your Feelings Matter

Valid ang nararamdaman mo. Kung malungkot ka, pagod, naiirita, or confused, hindi ibig sabihin na dramatic ka. May dahilan ang emotions mo, at karapat-dapat silang pakinggan. Be gentle with yourself, love.

Hindi mo kailangang itago ang feelings mo palagi.

- *You are loved. Please be gentle with yourself.*

## Small Steps Still Count

Kahit maliit na bagay lang ang nagawa mo today, may halaga pa rin iyon. Nakapagpahinga ka? Good. Nakakain ka? Good. Nagpatuloy ka kahit mahirap? That counts, too. Hindi kailangang malaki ang progress para maging proud ka sa sarili mo.

- *You are loved. Please be gentle with yourself.*

## **You Deserve Peace**

Sa gitna ng ingay, arguments, at pressure, sana makahanap ka ng kahit kaunting peace. Close your eyes, breathe, drink water, and give yourself a quiet moment. You deserve a calm heart. Hindi selfish ang magpahinga; kailangan mo rin iyon.

- *You are loved. Please be gentle with yourself.*

## **Family Is Not Always Perfect**

Normal na may misunderstandings, differences, at arguments sa family. Hindi ibig sabihin nito na wala nang love. Sometimes people are also tired and learning. Hindi mo responsibilidad ang lahat ng problema. Do what you can, communicate when safe, and protect your peace.

- *You are loved. Please be gentle with yourself.*

## You Can Still Be Happy

Kahit may problema, pwede ka pa ring tumawa, mag-enjoy, at magkaroon ng good moments. Hindi ibig sabihin na wala kang pakialam sa family mo kapag masaya ka. You are allowed to experience happiness, even during difficult seasons.

■ You are loved. Please be gentle with yourself. ■

## **You Are Not a Burden**

Please remember: hindi ka burden dahil may needs, feelings, or problems ka. You are a person who deserves patience and understanding. Hindi mo kailangang bayaran ang love sa pamamagitan ng pagiging perfect. You belong. You matter. You are enough.

- *You are loved. Please be gentle with yourself.*

## It's Okay to Take a Break

Hindi mo kailangang productive every minute. Rest is not laziness. Kapag pagod ka, pause muna. Matulog, huminga, makinig ng music, or do something comforting. You can continue later. Hindi nauubos ang worth mo kapag nagpapahinga ka.

- *You are loved. Please be gentle with yourself.*

## You're Doing Your Best

Baka feeling mo kulang ang ginagawa mo, pero hindi mo nakikita ang lahat ng effort mo. You keep trying, you keep caring, and you keep showing up. That is meaningful. Hindi kailangan perfect ang best mo. Ang mahalaga, ginagawa mo ang kaya mo ngayon.

- *You are loved. Please be gentle with yourself.*

## Better Days Are Coming

Hindi man malinaw ang future ngayon, hindi ibig sabihin na forever ganito ang pakiramdam. Things can change slowly. May mga araw na mas magaan, may mga taong tutulong, at may bagong chances. Hold on to small hopes. You don't have to figure out everything today.

- *You are loved. Please be gentle with yourself.*

## You Are Not Alone in This

Kahit busy, malayo, or hindi tayo laging nakakapag-usap, hindi ibig sabihin na wala akong care. You can always tell me when you need comfort. Hindi mo kailangang magpanggap na okay. I'm willing to listen, one story and one feeling at a time.

- *You are loved. Please be gentle with yourself.*

## Keep Going, Gently

Keep going, but please do it gently. Hindi kailangan pilitin ang sarili hanggang maubos. Take breaks, ask for support, and celebrate small wins. You have come this far, and your story is still being written. I believe there are still beautiful moments ahead.

- *You are loved. Please be gentle with yourself.*

## **Thank You for Being You**

Thank you for being you, even when you are tired, quiet, busy, or unsure. Your kindness and effort mean more than you know. Hindi mo kailangang baguhin ang sarili mo para maging deserving of love. You are special, and I hope you remember that today.

■ *You are loved. Please be gentle with yourself.*

## You're Growing, Not Just Surviving

Hindi ka lang basta nakakalagpas sa araw-araw. You are learning, growing, and becoming stronger in your own way. Be patient with yourself. Your life does not need to be perfect to be beautiful. Take care of your heart, love. You got this, and you are deeply appreciated.

- *You are loved. Please be gentle with yourself.*
